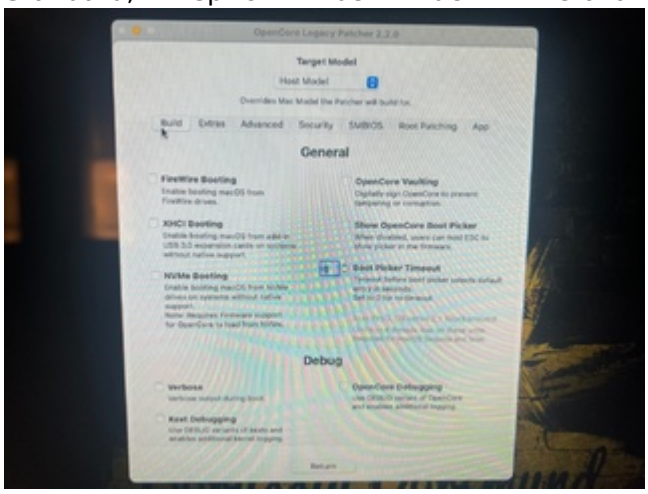
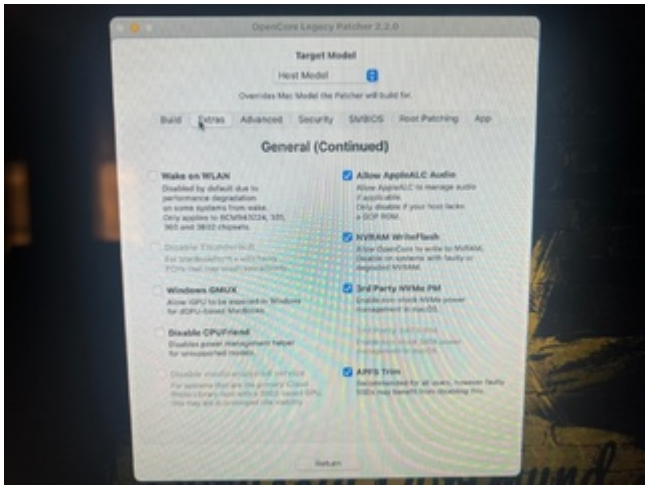
Teamviewer oder AnyDesk kein Bild

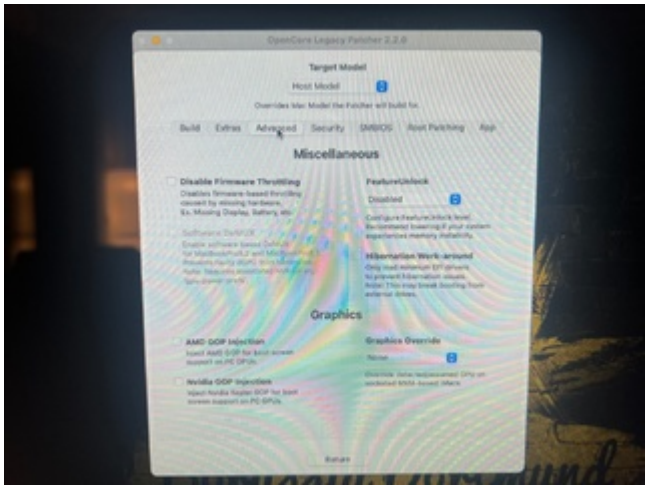
Beitrag von „dozwin81“ vom 14. Februar 2025, 19:27

Sorry aber was sind „kext“ dachte Macos Version und auf welchem Mac würde reichen ♂

Hab mein Profil aktualisiert, hoffe du meinst mit Kext den Patcher, hab OpenCore 2.2.0 im Standard, sprich bei der Installation keine Änderungen vorgenommen.







OpenCore Legacy Patcher 2.2.0
