Gigabyte DS3H El Capitan UEFI

Beitrag von „daniel14513“ vom 23. November 2015, 19:15

ich habe es nun nochmal ausprobiert mit El Capitan, habe diesmal aber den USB Stick ans Mainboard (usb 2.0) und nicht Vorne angesteckt und mit den Bootflags:nvda_drv=1kext-dev-mode=1PCIRootUID=1 wie von Paul703 beschrieben, nun komme ich schon ziemlich weit im verbose mode wie ich finde, jedoch bleibt er hier stehen:

```
