AppleALC ins BIOS

Beitrag von „crazycreator“ vom 12. Februar 2017, 18:53

letzte version terminal:

Code

1. Last login: Sun Feb 12 18:27:42 on ttys000
2. iMac:~ crazycreator\$ /Users/crazycreator/Downloads/AppleALC-Downloader.command ;
exit;
3. /Users/crazycreator/Downloads/AppleALC-Downloader.command: line 150: syntax error:
unexpected end of file
4. logout
5. Saving session...
6. ...copying shared history...
7. ...saving history...truncating history files...
8. ...completed.
9. [Prozess beendet]
