Erledigt **Please help me create a DSDT for MSI Z97 GAMING 3**

Beitrag von „chohsiao" vom 31. März 2017, 07:03

Ok, I will do that like you say. I don't have the latest version of AppleALC and Shiki. Could you give me an archive ?
I have a problem along time, My Graphics is Nvidia gtx 770, If my system sleep or my monitor sleep, after wake up my Graphics can't auto frequency, it's the fullest frequency work. I don't know how to fix it.
