

EasyKext Pro

Beitrag von „derHackfan“ vom 25. Mai 2017, 23:14

Und gleich noch die aktuelle Version v2.4 hinterher ...

- Fix Yosemite Bug
- New option : Right click on kext , select open with EasyKextPro and rest will be automatically, you don't need to open app
- New option : Drag kext to EasykextPro icon and rest will be automatically , you don't need to open app
- Minor bug fixes
- More Swifty codes
