## **How do I convert Clover's Firmware, Features, Firmware, Features, Mask characters to OzmosisDefaults's numeric string?**

**Beitrag von „griven“ vom 28. September 2017, 20:39**

You may use a Calculator that is capable to convert HEX into DEC or simply use a service like this one: <http://www.binaryhexconverter.com/hex-to-decimal-converter> 😄
