Audio über HDMI an GIGABYTE GA-B150N

Beitrag von „kocko“ vom 15. Oktober 2017, 18:24

Clover does not show anything after pressing F4.

Command in Terminal "sudo cat / sys / firmware / acpi / tables / DSDT> dsdt.aml" does not display any DSDT record!

Clover does not appear in the "Origin" list. Does DSDT look like it did not exist!

I get a listing from MaciASL and Clover Config.plist here. I do not know anymore ...
