

Funktionierender NVRAM nun mit Clover

Beitrag von „Brumbaer“ vom 15. Januar 2018, 18:31

[@vit9696](#)

I use/tested the following functions:

GetTime

SetTime

GetWakeupTime

SetWakeupTime

GetVariable

SetVariable

GetNextVariableName

GetNextHighMonotonicCount

ResetSystem

All behave as expected using the old OsxAptio...

Using the new OsxAptio... will crash all but

GetVariable

SetVariable

GetNextVariableName

I can't judge ResetSystem, because crash and reset look alike.
