hi, what you mean about info? i have high sierra 10.13.3 and final cut 10.4. I have i7 7700k z270x ultra gaming and 16 gb ddr4 and gigabyte gtx 960 4gb. All work good in my hackintosh but when i run the brucex test it close in 10 minutes. Normaly it must close in few seconds.... i don't know what is the problem. 😞
