Mojave installation

Beitrag von „Leo Duke“ vom 29. Juni 2018, 15:52

... ja, ich checkte alle nacheinander durch und kein Aptio* funzt. Ich probierte auch ohne, leider ohne Erfolg. Hier meine drivers64UEFI

A screenshot of a file list, likely from a file manager or terminal, showing a collection of EFI drivers. Each entry consists of a small icon (a square with a diagonal line) followed by the filename. The files are listed in a single column, separated by horizontal lines.

- apfs.efi
- AppleImageCodec-64.efi
- AppleKeyAggregator-64.efi
- AppleUITheme-64.efi
- AptioMemoryFix.efi
- DataHubDxe-64.efi
- EmuVariableUefi-64.efi
- FirmwareVolume-64.efi
- FSInject-64.efi
- HFSPlus-64.efi
- PartitionDxe-64.efi
- SMCHelper-64.efi
