Startproblem - GA-Z77Mx-D3H- Ozmosis High Sierra

Beitrag von „Nemesis“ vom 22. Juli 2018, 06:27

[Zitat von kuckkuck](#)

Would you rather communicate in English? Ou en français? 😄 Mais mon français n'est pas très spécial 😐

No, your French is perfect 👍 , but we can speak in English.

I have something new, I don't know if it's because I used this ROM (Z77MXD3H_HighSierra_L1c.F7e.rom), but now I can choose my disk by pressing the F12 key "Please select boot device", before my disk containing High Sierra never appeared
