Erledigt **Lenovo T480**

Beitrag von „arch817" vom 11. August 2018, 05:20

Did someone have an issue with installing High Sierra 10.13.6 on T480 SSD (NVMe). In my case MacOS can't see my ssd drive. I tried few patches from here https://github.com/RehabMan/patch-nvme , but it didn't help.
