## **Xiaomi Gaming 2018**

**Beitrag von „al6042“ vom 12. September 2018, 12:25**

Hi and welcome to the forum... 😊

you can find a list of supported Wifi cards under the following link ->  
<https://osxlatitude.com/forums...supported-wireless-cards/>

In regards to the Pascal graphic, you should try and see if the WebDriver works for your machine...

Did you check the kexts, which are used on the other Xiaomi Devices?
