Boot Error von SSD

Beitrag von „al6042“ vom 23. September 2018, 18:54

Hast du im BIOS folgende Einstellungen gesetzt?

Advanced\Chipset Configuration:

Primary Graphics Adapter = PCI Express

Onboard HD Audio = Enabled

Front Panel = Enabled

Onboard LAN = Enabled

Advanced\Storage Configuration:

SATA Mode Selection = AHCI

Advanced\Super IO Configuration:

Serial Port = Disabled

Advanced\USB Configuration:

Alle 4 Punkte = Enabled

Boot\CSM(Compatibility Support Mode):

CSM = Disabled

Security:

Secure Boot = Disabled
