

Erledigt **HYSTOU BAREBONE**

Post by "NoirOSX" of Jan 14th 2019, 4:59 pm

Meinst Du das [hitman20](#)

```
ME Firmware Version          0.0.0.0
ME Firmware Mode             ME Failed
ME Firmware SKU              Unidentified
ME File System Integrity Value 0
ME Firmware Status 1         N/A
ME Firmware Status 2         N/A
NFC Support                   Disabled

ME State                      [Enabled]
Comms Hub Support             [Disabled]
JHI Support                   [Disabled]
Core Bios Done Message       [Enabled]

▶ Firmware Update Configuration
▶ PTT Configuration
▶ ME Debug Configuration
```

ist auch grau, funktioniert aber trotzdem
