

Kurzanleitung: High Sierra, Mojave ,Catalina, BigSur und Ventura auf ASUS Zenbook UX330UAK

Beitrag von „mouthbow“ vom 5. Februar 2019, 11:21

Hi! Finally I managed to make work your version. After fixing the video all the other things worked perfectly with Mojave.

Many thanks for your work!!!

Only one question: did you notice if the battery runs for shorter time in Hackintosh??

Have a nice day!
