High Sierra mittels Clover auf Gigabyte H370M D3H GSM installieren

Beitrag von „mabam“ vom 16. Februar 2019, 15:22

I didn't use the OsxAptioFix2.efi or similar at all. I've just tried with OsxAptioFix2Drv-free2000.efi, but that doesn't change anything either. Seems like I will have to do without sleep then.
