

OpenCore Bootloader

Beitrag von „Noir0SX“ vom 4. Mai 2019, 09:15

Bei mir läuft nun **OpenCore v0.2** , im Anhang mal die benötigten bzw die aktuellen Daten zum testen

Dazu noch der **OpenCore Changelog** vom **Release**
[**https://github.com/acidanthera/OpenCorePkg/releases**](https://github.com/acidanthera/OpenCorePkg/releases) der Version

v0.0.1

Initial developer preview release

WARNING: This release is a developer preview, i.e. it targets experienced engineers and developers. Configuration and feature set are under works, i.e. refinements are expected to happen with 1.0.0 release.
