

# acidanthera VirtualSMC (Wird zum Boot benötigt)

Post by "NoirOSX" of Jan 13th 2020, 5:11 pm

## v1.1.0

- Minor performance improvements
- Added OpenCore builtin protocol support (VirtualSmc.efi can still be used in other bootloaders)
- Added fan and voltage reporting in SMCSuperIO through I/O Registry (requires client updates) by [@joedmru](#)
