Intel UHD Graphics 630 7 MB & 2 Monitore

Beitrag von „Astral“ vom 26. April 2020, 11:11

Diese Werte auch probiert?

AAPL,ig-platform-id 0300923E

device-id 923E0000

Man kann auch verschiedene [BIOS Einstellungen](#) probieren. [DVM](#): 32/64/96

Graphik Erkennung zuerst: Auto/intern/PCIe

usw.

Bei mir geht HD630 mit i5-8500 und 2 Monitoren hiermit:

▼ PciRoot(0x0)/Pci(0x2,0x0)	Dictionary	(11 items)
