

Erledigt DSDT Sammelthread (Hilfe und Diskussion)

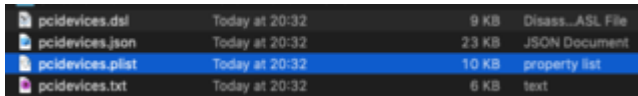

Beitrag von „al6042“ vom 18. Juni 2020, 20:36

Hi,

wenn es dir nur darum geht den Inhalt des PCI-Bereichs im Systembericht "schöner" zu gestalten, solltest du nicht an der DSDT operieren, sondern mit dem HackinTool die PCIe-Daten extrahieren und den Teil der pcidevices.plist in die config.plist von Clover einsetzen.

Ergibt:

Die .plist sieht dann ungefähr so aus:

und muss an diese Stelle in deiner config.plist:

Da

Device	Model	Type	Driver Installed	Slot
ATI	ATI Radeon HD 5750 (7T)	gpu-controller	Yes	Internal@0,1,0,0,0,0,0,0

Kann aber in der config.plist noch nach Wunsch editiert werden.

Vorteil:

du musst dich nicht mit der DSDT herumschlagen und dabei ggf. Fehler einbauen, die negative Auswirkungen mitbringen.
