

# Wann nach OS prüfen bei ACPI Patches?

Beitrag von „5T33Z0“ vom 23. Oktober 2020, 17:59

[Rexima](#) Das musst du auch in der DSDT machen, glaube ich. Dump die doch mal mit SSDTTime unter Windoof. Guck mal in die Sample SSDTs die im Docs Ordner vom OpenCore Download liegen, da sieht man, wie's gemacht wird.

```
1 /*
2  * Starting with macOS 10.15 Ambient Light Sensor presence is required for backlight functioning.
3  * Here we create an Ambient Light Sensor ACPI Device, which can be used by SMCLightSensor kext
4  * to report either dummy (when no device is present) or valid values through SMC interface.
5  */
