

Lenovo Thinkpad T530

Beitrag von „5T33Z0“ vom 9. November 2020, 13:08

Use the Displayport.

Modify your frambuffer. Follow this guide, read the documentation and linked content.

<https://dortania.github.io/OpenCoreist/ivy-bridge.html#add-2>

If you use a different connector you have to define it in the Patch. You can use Hackintool for that. I can't help you with that.
