

„One more thing“ Apple Event 10. November

Beitrag von „henties“ vom 10. November 2020, 22:04

Jetzt mal in English: Microsoft has at long last been "outclassed solidly" by Apple's endeavour for the future and in the process generated confidence in their path forward and made Intel's as well as Microsoft's future success questionable. An interesting time for all of us ahead indeed. For me a time to celebrate.
