DELL 7730 Big Sur ALC289 Layout ID

Beitrag von „ende4711“ vom 14. März 2021, 13:43

Es geht alles perfekt.. kein knistern am Klinken Ausgang. Microphone geht mit Klinke als auch ohne Klinke mit Lautsprecher am Laptop.

Hier der Screenshot:

The screenshot displays the system information for the audio controller. The top section shows the device name as 'Stereo HDMI Audio [Nahesee K3 471902 / 570380290]'. Below this, the 'Pin Configuration' table lists various ports and their settings:

ID	PinOutback	Device	Connector	Port	Gross Location	Geometric Location	Color	D	P	SAMP	
18 (0x12)	90A60010	In	MC In	Other Digital	Fixed	Internal	N/A	UNKN.	1	0	-
20 (0x14)	90170020	Out	Speaker	Other Analog	Fixed	Internal	N/A	UNKN.	2	0	On2
25 (0x19)	00811030	In	Line In	1/8" Stereo/Mono	Jack	External	N/A	Black	3	0	-
33 (0x21)	00211040	Out	HP Out	1/8" Stereo/Mono	Jack	External	N/A	Black	4	0	On2

The 'Audio Info' section provides the following details:

- Name: Wert
- Class: AppleIOADriver
- Manufacturer: Intel Corporation (0x8086)
- Device: 100 Series/C230 Series Chipset Family HD Audio Controller (0x4170)*
- Sub-Vendor: 0x4 (0x1028)
- Sub-Device: 777 (0x0B3D)
- Codec-Vendor: Realtek (0x10EC)
- Codec-Name: ALC289 (0x0289)
- ALC-Layout ID: 15
- Revision: 13
- Min. Kernel: 15
- Max. Kernel: 15
- AMP Line Power State: <03000000>
- Codec ID: 0x10EC0289
- Config Data: <01470402 02170402>
