Welche NVMe für T470? (was: Freeze T470 bei eingestecktem Ladegerät)

Beitrag von „EdD1024“ vom 17. Juni 2021, 15:38

Code

```
1. #Maintained by: RehabMan for: Laptop Patches
2. #system_ADP1.txt
3.
4. # Note: if AppleACPIACAdapter is already loading (look at your ioreg), then
5. # this patch is not necessary for you.
6.
7. # Note: Old patch used to rename AC or ACAD to ADP1 to be more "Apple" like
8. # Turns out, this is not needed.
9.
10. # Replace all instances of AC with ADP1
11. #into_all all code_regex \.AC, replaceall_matched begin .ADP1, end;
12. #into_all all code_regex \(\AC, replaceall_matched begin (ADP1, end;
13. #into all label AC set_label begin ADP1 end;
14.
15. # Replace all instances of ACAD with ADP1
16. #into_all all code_regex \.ACAD, replaceall_matched begin .ADP1, end;
17. #into_all all code_regex \(\ACAD, replaceall_matched begin (ADP1, end;
18. #into all label ACAD set_label begin ADP1 end;
19.
20. # Power fix - cause AppleACPIACAdapter to be loaded
21. into device name_hid ACPI0003 code_regex Name\s+(\_PRW,[\s\S]*\}\)\ remove_matched;
22. into device name_hid ACPI0003 insert
23. begin
24. Name (\_PRW, Package() { 0x18, 0x03 })
25. end;
```
