Hi [fabiosun](#) , to summarize a bit for you:

She is using the work of a lot of people. Especially the work of the OpenCore Team, ProxMox, Acidanthera etc. to sell their work as their own. Also I mentioned that the great work of Nick Sherlock and you in your thread was used by her. And she stated in an answer that she is not using this work from all this mentioned people. So she is simply a liar.

So at the end I believe we think the same from her...

Greets,

Joerg
