## **Opencore for Intel 11th generation**

Beitrag von "Deejay" vom 27. Dezember 2021, 11:43

I totaly understand you and your decicion. For now I am happy with my new Z590M Board, the i5-11600K and my cheap ass GT710, after a few headaches and some stress I had! But I see myself with a 30"+ iMac with a M1 Pro or Max as my next Desktop, too!
