Hardware-Kompatibilität | Intel-Setup mit Thunderbolt 3/4 für rund 2'500€

Beitrag von „fabiosun“ vom 9. August 2022, 16:19

[Flynn LG](#) I have flashed my Titan Ridge 1.0 by myself with that object you posted (I am not expert at all with this stuff and I was very lucky) 😊

before I have misured with a multimeter volt to be sure

this is what I have bought:
