

In Arbeit

HacinTosh - Ryzen 5950X - MSI Meg Unify X570 + AMD GPU (?)

Beitrag von „Enaske“ vom 27. August 2022, 12:34

Edit:

After a few Reboots, it seems it fixed itself. I can now run it fine.

All is left, to copy the boot files to my System, so I can get rid of the USB Stick.
