

## **Ivy-Bridge Installation {gelöst auf ivy-bridge installation {noch OC 0..6.9}}**

**Beitrag von „max.b1963“ vom 29. September 2022, 21:04**

Your problem is that your i5 does not support AVX2 commands, which is needed to run Ventura. [griven](#) has already mentioned this before. You will have to live with Monterey.
