

HP g840 g3 MacOS Monterey will nicht

Beitrag von „OSX-Einsteiger“ vom 9. November 2022, 23:46

Lade denn [AirportItlwm.kext](https://github.com/OpenIntelWireless/itlwm/releases/tag/v2.1.0) für Monterey hier [runter](https://github.com/OpenIntelWireless/itlwm/releases/tag/v2.1.0)
[https://github.com/OpenIntelWi...itlwm/releases/tag/v2.1.0](https://github.com/OpenIntelWireless/itlwm/releases/tag/v2.1.0)

dann passe ich die config.plist an .
