

Asus B550 Bootloop

Beitrag von „fabiosun“ vom 15. November 2022, 17:40

I see in config a kext for USB mapping

is it properly done for your System?

Have you updated all your kext?

then if you are installing Monterey or greater OSX you miss a kext:

AppleMCEReporterDisabler.kext

[AppleMCEReporterDisabler.kext.zip](#)

with this kext you should pass that Hang
