

MacOS Ventura Blackscreen

Beitrag von „fabiosun“ vom 11. September 2023, 17:11

now DevirtualizeMMIO quirk is correct

could you post a photo of open core boot menu you see?

or you do not see any icon to start?

I see you have a theme so you should see a graphical menu

Latest part of the log is always wrong and it seems you do not boot from an installer but from a nested EFI
