

Gigabyte Z390 DESIGNARE: OpenCore-EFI-Ordner und Anleitung

Beitrag von „StevePeter“ vom 4. Oktober 2023, 13:28

Hallo, bin langsam am verzweifeln.

Hab meinen Hacky jetzt komplett neu aufgesetzt, OC 0.9.6 mit Kexten aktualisiert. Alles, auch W-Lan funktionieren wieder.

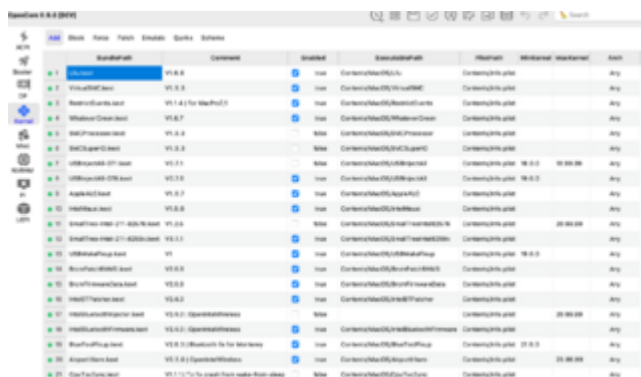

Nur Bluetooth bekomme ich nicht zum laufen. Benutze die int. Intel Karte.

Hätte mir mal jemand einen Tip?

Kann mal bitte jemand drauf schauen? Stimmt die Reihenfolge so?

Wäre auch bereit mich erkenntlich zu zeigen.

Gruß und Dank
