

AMD Radeon 6650 XT, 6950 XT und 6900 XTXH ohne GPU-ID Spoofing

Beitrag von „Scanduz“ vom 3. April 2024, 14:54

Code

1. Hi everyone, my name is Angelo, and I'm making you a new member. I followed this guide to activate graphic effects on my rx 6650 xt asus rog strix installed on a mac pro 5.1 with mac os monterey. I got the apple loading and then black screen flashing. I was kindly asking for help in activating the graphic effects on the card
