

# macOS 26 Tahoe auf den Hackintosh

Beitrag von „ST3R30“ vom 29. Januar 2026, 16:47

[Zitat von Mieze](#)

[fabiosun](#) Don't get me me wrong, I'm not complaining about you, but I'm criticizing laobamac for taking my code deliberately violating copyright and the GPL, because he didn't even mention that he copied the code form LucyRTL8125Ethernet.

You could use the "Report repository" function and state your claim there. Or create an issue and put him on blast directly. 😄
