Kextcache -i Diverse Fehlermeldungen

Beitrag von „schmalen“ vom 26. Januar 2020, 12:56

Habe mit Hackintool RebuildCache und RepairPermission aufgeführt

Allerdings kommen da so ominöse Fehlermeldungen, was haben die zu bedeuten?

Das sind keine Fehlermeldungen das ist der verbose output von deinen Befehlen das er unsignierte Thrid party Kexte erlaubt hat in deiner Cache aus L/E oder S/L/E.
